Candy Case

Hello, pleased to meet you, and good day.
Akari Ryuryuu here.
This is our first new publication since last summer's Comi.
Even though we put out an annual release at Ofuse, this is our first time putting out a doujinshi this long.
It was kind of hectic.
I got interested in Candy Boy and started to draw it it after seeing it a few times on Niconico video.
Please read and enjoy.

Hello once again, Akari Ryuryuu here.
Various reflections are here as well, is the kind of feeling this time.
Basically, I like watching Kana-chan and Yuki-chan act lovey-dovey, so if those two are together it's OK.

I said to a friend "I like girls with girls doing girl stuff" and they replied "I don't get what you're saying, but I understand how you feel".
Yeah, it's fine that way.

So how was it? I'm happy to hear your thoughts. If I get a good response I'll think about doing a second one, so treat me kindly.

Well then, see you somewhere.
